2011-12 Assessment and Accountability

District and Secondary Schools

November 15, 2012

(9), White (9), African American both School wide and subgroup eight middle schools met all their California grew by 10 points to reach an API score of 800 by 2014. Wh achieved a higher API score than scored lower than Long Beach, S with surrounding districts, SCUSD Elk Grove, Natomas, and San Juan

The federal AYP model has four Percent Proficient, API, and graduation the district and all numerically significant not meet all the percent proficient subgroups. Only the Native Hawaiian groups met the target for math. did not meet it for all numerical component was not met. The state was Two or More Range of targets is from 26 of 50 criteria and 78% of all students (math at the district level state, met all targets include: Alice Birney Bacon, Success Academy (IC).

Individual middle and attachment.

II. Driving Governance

Pillar I (College and Career) that we continue to students with a relevant career exploration, v requirements. Our goals expectations."

Click on column header to view notes.

In order to meet federal requirements of No Child Left Behind, a 2012 Growth API is posted even if a school or LEA had no 2011 Base API or if a school had significant population changes from 2011 to 2012. However, the presentation of growth targets and actual growth would not be appropriate and, therefore, are omitted.

"N/A" means a number is not applicable or not available due to missing data.

" * " means this API is calculated for a small school or LEA, defined as having between 11 and 99 valid Standardized Testing and Reporting (STAR) Program test scores included in the API. The API is asterisked if the school or LEA was small in either 2011 or 2012. APIs based on small numbers of students are less reliable and therefore should be carefully interpreted.

"A" means the school scored at or above the statewide performance target of 800 in 2012.

"B" means the school did not have a valid 2011 Base API and will not have any growth or target information.

"C" means the school had significant demographic changes and will not have any growth or target information.

"D" means this is either an LEA or a special education school. Target information is not applicable to LEAs or special education schools.

Targets Met - In the "Met Growth Target" columns, the growth targets reflect state accountability requirements and do not match the federal Adequate Yearly Progress (AYP) requirements. The AYP requirement for the API is a 2012 Growth API of 740, or a one-point increase from the 2011 Base API to 2012 Growth API for a school or LEA.
