

Compliance with the Pupil Textbook and Instructional Materials Incentive Act (Ed Code 60119)

November 3, 2022

Presented by:
Erin Hanson, Assistant Superintendent, Curriculum & Instruction

Every system is perfectly designed
to get the results that it gets

SCUSD CORE VALUE

We recognize that our system is inequitable by design and we vigilantly work to confront and interrupt inequities that exist to level the playing field and provide opportunities for everyone to learn, grow and reach their greatness.

SCUSD GUIDING PRINCIPLE

All students are given an equal opportunity to graduate with the greatest number of postsecondary choices from the widest array of options

Pupil Textbook & Instructional Material Incentive Act

Education Code Section 60119 (as revised by Chapter 900, Statutes of 2004) specifies the governing board shall hold a public hearing on or before the end of the eighth week of the school year. The Board shall make a determination through a resolution as to whether each pupil in the district has sufficient textbooks or instructional materials in each subject consistent with the content and cycles of the curriculum framework adopted by the state board, and to identify the remedy for any insufficiencies.

This process is also referred to as "Williams Act" or "Williams Review"

Pupil Textbook & Instructional Material Incentive Act

As specified in Education Code, the purpose of SCOE's visits to SCUSD schools is to:

1. Determine if pupils have "sufficient" instructional materials in four core subject areas (English language arts, mathematics, history/social science and science, including science laboratory equipment in grades 9-12) and, as applicable, in foreign language and health.
2. Determine if there is any facility condition that "poses an emergency or urgent threat to the health or safety of pupils or staff."
- 3.

2022-23 Williams Site Visits

Recommendation: Approve Resolution Number 3294

Certifies that each Sacramento City Unified School District student has sufficient textbooks and/or instructional materials in all core subjects that are aligned to the academic content standards and consistent with the cycles and content of the curriculum frameworks. Additionally, the resolution certifies the availability of science lab equipment at grades 9-12.
