11.4 Strategic Plan 2016-2021 Implementation Report
(Dr. Al Rogers)

Information

Chief Strategy Office Al Rogers began the presentation by introducing Strategy and Innovation Director Ed Eldridge, LCAP/SPSA Coordinator Cathy Morrison, and Student Outcomes Coordinator Sara Pietrowski. They briefed the Board on activities associated with the implementation of the Strategic Plan.

Public Comments:

Darlene Anderson said there is no longer a team of people where you can pick a meeting and go to it to find out what is happening. She feels when participating at the school site you can see some single plan for student achievement data and kind of understand. She would like to know how many students in each

Vice President Hansen noted that Dr. Rogers has done great work on the Strategic Plan, and he thanked him.

Member Rodriguez said there is a lower grade level of the ACT that is available, and she can provide

information on this to staff; as a parent she felt it gave more logical understanding of where her children were. She suggested using the ACT instead of the benchmarks we are using. She also feels we are not

or F's per school. Ms. Pietrowski replied that the primary way one will see all the different KPI disaggregated, whether by school, grade level, or ethnicity, will be through the data dashboard. Each KPI will have its own dashboard and there will be multiple filters available to use. Member Woo asked if the Board could have a demonstration as part of a future presentation Ms Pietrowski answered yes. that

Second Vice President Ryan thanked Dr. Taylor. She noted that this is a response to a State mandate. She said it is important to recognize that the reality of disproportionality is that there is an unfortunate number of black and brown students being held back, particularly in the area of math. What this addresses is that high stakes testing alone cannot be the primary driver of math placement, particularly

of the State. She is now looking at interpreting more realistic

Rodriguez spoke about our obligation to cover the health care costs and how cuts can potentially affect the classroom. Mr. Castillo agreed, and spoke of revenues that we no longer receive. President Pritchett asked for a motion to approve this Item. Member Cochrane so moved, and Member Woo seconded. The Item was approved unanimously with Vice President Hansen and Member Arroyo away from the dais.
