	Board of Education
Propos	The Superintendent recommends approval of Resolution No. 3448 – Supporting ition 2 – The

SFP grants may be used for advancing state energy goals, outdoor learning environments, school kitchens, TK and Preschool facilities, space for counselors and nurses, seismic retrofits, and broadband access.

State Share Sliding Scale – Increases the maximum state share and reduces the local match for some projects. No project would receive less than the current state share. Projects can receive up to 16 total potential points for the increased match calculation across the following categories:

- Unduplicated LCFF Pupil percentage up to 8 points
- Low gross bonding capacity up to 4 points
- Very small schools (<200) up to 2 points</li>
- o Projects using a Project Labor Agreement up to 2 points

Requires a public hearing to discuss a project before the local governing board for submission to the state approves it.

Independent performance audits

Must post project and audit information on the school district website, including the location, estimated cost, and estimated timeline for completion

Our department already has an estimated \$80 million in eligibility for Measure H projects but cannot be funded without the governor using general fund money or the passage of a new statewide school bond.

We estimate we will have an additional \$100 million in eligibility for future projects which would be funded by a new statewide bond

The new scoring criteria benefits Sacramento City Unified more than most due to the higher unduplicated LCFF pupil percentage

The new scoring criteria benefits Sacramento City Unified more than most due to the Project Labor Agreement we already have in place.

With local bonds passed, Sacramento City has matching funds and can begin construction sooner than other districts without matching funds ready

The school district already has a bond oversite committee that completes the performance audit process with accounting

We already have information regarding projects and dashboards ready for school projects for the website

Not all projects would require a public hearing, but our largest projects that we would submit to the state for eligibility reimbursement are already presented to the board; adding a public hearing would have no new impact

	Potential State Matching funds for eligible construction projects in
estimation of \$100 million do	ollars.

The

WHEREAS, the California Constitution finds public education is a State responsibility in Article IX Section 5; and

WHEREAS, the State is out of school facility program funds and cannot provide the State match for almost \$3.5 billion in projects which qualify for state aid; and

WHEREAS, the Sacramento City Unified School District has \$4 billion plus in facility need which may be partially funded by State bonds; and

## WHEREAS, Proposition 2 the

provides for renovation of aging schools, upgrade of existing classrooms, construction of new classrooms to accommodate growth, Career Technical Education facilities to provide job training to meet the workforce needs of California employers, testing and remediation of lead levels in water at school sites, disaster assistance, replacement of 75-year-old buildings, adding essential facilities like libraries and multipurpose rooms, mitigating the effects of higher average temperatures, and assistance for small and low-wealth school districts; and

WHEREAS, school districts need state financial support to implement new mandates and initiatives such as universal Transitional Kindergarten, Expanded Learning, on-site cooking and meal preparation, later secondary school start times, and solar power generation and storage; and

WHEREAS, quality 21st Century school facilities designed for today's and tomorrow's students enhance academic achievement and further the State's academic goals; and

WHEREAS, the California unemployment rate is greater than the national unemployment rate; and

WHEREAS, 13,000 middle class jobs are created for each \$1 billion in school facility infrastructure investment; and

WHEREAS, these jobs will be created throughout California and will include almost all building trades; and

WHEREAS, the Local Control Funding Formula provides funding for educational services for all students, but does not provide dedicated facilities funding; and

## WHEREAS, Proposition 2, the
