In addition, Sacramento Regional Transit District is providing **FREE** transit rides to your appointment—simply show your appointment confirmation email or text for your **FREE** ride.

The Rancho Cordova COVID-19 Vaccine Clinic is hosted by:

Is the COVID-19 vaccine safe?

Yes. The COVID-19 vaccines have gone through rigorous studies to ensure they are as safe as possible. Systems are in place to watch for safety issues across our country. These vaccines are being administered not just in the United States but around the world.

Why should I consider getting a COVID-19 vaccine?

1. **COVID-19 vaccination will help keep you from getting COVID-19.** COVID-19 vaccines are highly effective at preventing COVID-19, may help keep you from getting seriously ill even if you do get COVID-19, and may also protect people around you.
 2. **COVID-19 vaccination is a safer way to help build protection.** Contracting COVID-19 can have serious, life-threatening complications, and there is no way to know how it will affect you. Plus, if you get sick, you could spread the virus to others.
