

## SACRAMENTO CITY UNIFIED SCHOOL DISTRICT MEASURE Q - BOND PROJECT LIST

The Bond Project List below describes the specific projects the Sacramento City Unified School District proposes to finance with proceeds of the bonds. Listed projects will be completed as needed at a particular school site according to Board-established priorities, and the order in which such projects appear on the Bond Project List is not an indication of priority for funding or completion. The final cost of each project will be determined as plans are finalized, construction bids are awarded, and projects are completed. While the District will actively pursue additional revenue sources to leverage the proceeds of the bond, certain construction funds expected from non-bond sources, including State grant funds for eligible projects, Federal grants, corporate, non-profit and private grants, have not yet been secured. Until all project costs and funding sources are known, the Board of Education cannot determine the amount of bond proceeds available to be spent on each project, nor guarantee that the bonds will provide sufficient funds to allow completion of all listed projects. Completion of some projects may be subject to further government approvals by State officials and boards, to local environmental review, and to input from the public. For these reasons, inclusion of a project on the Bond Project List is not a guarantee that the project will be funded or completed. The Board of Education may make changes to the Bond Project List in the future consistent with the projects specified in the proposition.

### Core Academic Renovation, Modernization, Repair and Upgrade Projects

Each project listed is assumed to include its share of costs of the election and bond issuance and other construction-related costs, such as construction management, architectural, engineering, inspection and other planning costs, legal, accounting and similar fees, independent annual financial and performance audits, a customary construction contingency, and other costs incidental to and necessary for design, planning, implementation and completion of the listed projects (whether work is performed by the District or by third parties), including:

- x Remove, dispose of, and otherwise remediate hazardous materials, including asbestos, lead, etc., where necessary.
- x Address unforeseen conditions revealed by construction/modernization (including plumbing or gas line breaks, dry rot, seismic, structural, etc.).
- x Site preparation/restoration in connection with new construction, renovation or remodeling, or installation or removal of relocatable classrooms, including ingress and egress, demolition of existing structures, removing, replacing, or installing irrigation and drainage, utility lines (such as gas lines, water lines, electrical lines, sewer lines, and communication lines), trees and landscaping, relocating fire access roads, traffic lights and mitigation, and acquiring any necessary easements, licenses, or rights of way to the property.
- x Rental or construction of storage facilities and other space on an interim basis, as needed to accommodate construction materials, equipment, and personnel, and interim classrooms (including relocatables) for students and school functions or other storage for classroom materials displaced during construction.
- x Acquisition of any of the facilities on the Bond Project List through temporary lease or lease-purchase arrangements, or execute purchase option under a lease for any of these authorized facilities.
- x Furnishing and equipping of existing and newly constructed, modernized or rehabilitated classrooms and facilities on an ongoing basis, including to replace worn, broken, or out-of-date furniture and equipment for all classrooms, athletic facilities and other facilities, as needed.
- x For any project involving renovation, modernization, remodeling or rehabilitation of a building or the major portion of a building, the District may proceed with new replacement construction instead (including any necessary demolition), if the Board of Education determines that replacement and new construction is more practical than rehabilitation and renovation, considering the building's age, condition, expected remaining life, comparative cost, and other relevant factors.

The Bond Project List shall be considered a part of this ballot proposition, and shall be reproduced in any official document required to contain the full statement of the bond proposition.
