

The District will allow an employee to report to work with a COVID -19 vaccine (first or second dose) after February 28, 2022 ~~November 30, 2021~~. Upon the department receiving notification of an employee's failure to be partially or fully vaccinated on or before February

[resolution](#)

Vaccinations: The District shall continue to work with healthcare partners to provide vaccinations at no cost to members of the bargaining unit and provide information regarding additional community clinic opportunities. The District shall also provide booster shots, as available, in the event they are advised to maintain the effectiveness of the vaccine.

This agreement is non-retroactive and expires on June 30, 2022 unless mutually extended
